ROOSEVELT AND HARMON ARE FAVORITES IN STATE OF OHIO

RUNNING SLOW SECOND GOVERNOR WILSON SHOWS UP WEAK.

O., May 21.—With little more than one-third of the total vote counted at 1 o'clock this morning, Colonel Roosevelt is leading on the Republican ticket and Governor Harmon's on the Democratic. The late preference primary election since held in Ohio has resulted in a considerable preference for Roosevelt.

On both tickets 235 to 240 precincts have returned their votes. The Roosevelt returns from slightly more than 200 precincts of 619. The Harmon returns from slightly more than 150 precincts of 619. The Roosevelt returns from slightly more than 200 precincts of 619. The Harmon returns from slightly more than 150 precincts of 619.

Harmon's lead over Roosevelt is considerably less than it was in the early returns. The closeness of the race is indicated by the fact that Roosevelt has been in the lead in the early returns. The closeness of the race is indicated by the fact that Roosevelt has been in the lead in the early returns.

Harmon seems winner while the Democratic preference vote was so close the result was not foretold. The judges were that Governor Harmon would have at least twenty-two of the delegates to the national convention.

The college of naming the six delegates at large of the State, however, is exercised by the winner of the Presidential preference vote. Of the Congressional districts Roosevelt apparently has won the delegates in the 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, NEW STYLE OF MILK BOTTLE

Small Opening at About Spot Where Bottom of Cream Line Is Quite Apt to Be.

Various devices have been invented to keep the cream out of a milk bottle. A Michigan man has contrived a new bottle in which there is a small opening at about the spot where the but-

ter line is apt to be. Normally the opening is plugged with a rubber plug but when the cream is run off this plug is taken out and the cream allowed to flow through hole. To do this however air is admitted to the top of the bottle so the plug is made with a point which can be jabbed through the pasteboard seal that is in the top. It is important to keep each plug with its particular bottle for once the plug is lost the bottle is of no use and another stopper can be found.

PREVENTION OF ROPY MILK

Caused by Certain Bacteria, One Type of Which Is Found in Dirty, Stagnant Water

A woman reader wishes help regard ing rosy milk asking the cause and how to prevent it. The milk is obtained at night and the next morning the cream is on top and must be thrown away. It is almost impossible to trace the cause of rosy milk to its source. Without

going into any lengthy explanation it may be said that rosy or slimy milk is caused by certain bacteria. One type may be found in dirty, stagnant water. If the cows wade in this water their flanks and udders become the breeding place for this type. The bacteria are easily transferred to the milk at milking time. The stable becomes infected as it were, and also the utensils that come in contact with the milk. The germs lodge in the crevices of the utensils and readily propagate in the warm milk. The cure lies in absolute cleanliness. All utensils should be thoroughly scalded. Lime is an excellent destroyer of all germs. The utensils must be given a coating of the scalded lime then washed in boiling water. It may be necessary to give the stable a thorough cleaning with lime used as a whitewash.

HANDY DEVICE IN THE BARN

Lever Attached to End Used for Opening and Closing Stanchions—How It Is Made

I have a handy device for opening and closing stanchions. It is a lever in the Missouri Valley Farmer. When making it I took first a strip of wire four feet one-half inch long. In it I formed holes with for stanchions as the stanchions were at the top.

The Lever Does It

Then I bored holes the same size in the bottom of the stanchion end of the lever. I bolted the wire to the stanchions and at the end of the lever in which the stanchions could easily be closed. The lock on the end of the stanchion is the only one that need be closed as the wire keeps all the others closed.

Effect of Feed on Milk. Some dairymen believe that if the feed of their cows is changed it will have a bad effect upon the milk. Few but repeated scientific experiments show that changing from one feed to another, and frequently additions to the regular feed helps the milk flow.

Money in Dairymaking

There is money in dairymaking in spite of a prevalent notion to the contrary but it needs a combination of good cows and good management to get it.

KAISER LOVES PARIS: WAR HIS LAST THOUGHT

The German emperor has no desire whatever to make war on France. He told Mlle Provost the French actress that the other day and to make his declaration more emphatic he gave her a gold ring set with the imperial monogram in sapphires and rubies the French national colors.

But the most of the conversation between the emperor and the former favorite of Comedie Francaise audiences concerned children. The emperor delighted to talk of women's dress. He likes the tight skirts now in favor and there is no one in Europe who knows better than he all the goes on in fashionable Paris.

I have heard of your resignation from the Theater Francaise said the emperor when Mlle Provost was presented to him in the French embassy in Berlin and I know they will be sorry that you have gone.

After acknowledging his indebtedness to the French museum in Paris for documents which helped him in writing Les Huguenots at the Berlin opera house, the emperor spoke with admiration of Paris of the chateaux of Versailles and of the palace of the popes at Avignon which he visited when it was the property of the sovereigns of England.

Mlle Provost remarked that Berlin is not a disagreeable city. Doubtless, replied the emperor, but Berlin is a new city. In France you have two things—Paris and the Alps.

Why, asked the comedienne smiling capriciously, why if you like us so much do you always want to make war on us?

I explained the emperor to surprise. Not at all. And you understand at Caen for whom I have the most profound esteem in the conflict of the last of a few people we have always thought of peace.

When Mlle Provost left them she received the bracelet of friendship from the emperor.

When a Man Finds Himself

A man only begins to be a man when he ceases to believe and ceases to search for the hidden justice which regulates his life. And as he adapts his mind to that regulating factor, he ceases to become unhappy as the cause of his condition and builds himself up as strong and noble thoughts, comes to kick against circumstances, but begins to use them as aids to his own rapid progress and as means of discovering the hidden powers and possibilities within himself. —James Allen

DE LA BARRA MEXICO'S BEST HOPE IN CRISIS

At the time of his appointment to the post of minister of the interior from the mass of conflicting reports concerning the situation in Mexico. It comes now only a question of days when he will be in a position to make good his promise to the country that there is not a decided turn looking to a new government with the new government to lead this just battle which is only value as near to the return to Mexico of Francisco de la Barra former ambassador to Washington on which came secretary of state for Diaz during the losing days of the latter's administration and later became president.

The reports regarding the situation in Mexico are all contradictory. The authorities at Washington on an important point that Viderra is gradually losing prestige. His military strength is declining, and the revolutionary leaders are rapidly growing in force and pushing their claims over the federalists. Both the chief of state seem to be effecting organizational changes to develop into formidable armies. Francisco de la Barra is content to remain in Mexico on front of the crisis.

The Washington authorities are sure De la Barra is an honest and able man. He returned to Mexico from Washington in 1900 and took as secretary of state and as a temporary secretary of the interior. He is a native of Mexico and has been in the country since 1880. He is a native of Mexico and has been in the country since 1880.
